# SHUBHAM MORE, PMP®

Programme Planner
London, UK · shubhamdeepakmore@gmail.com · www.linkedin.com/in/shubhamdeepakmore
Portfolio: https://shubhamdmore.netlify.app/

## PROFESSIONAL PROFILE

PMP-Certified PMO professional with 3+ years of experience supporting the delivery of complex, safety-critical programmes within a regulated aerospace environment. Strong foundations in project controls, scope and change management, risk management, and stakeholder reporting — built through hands-on delivery on programmes where audit-readiness is non-negotiable. Comfortable across critical path monitoring, milestone tracking, budget tracking, and structured reporting — with Power BI and Excel underpinning much of the day-to-day automation and visibility work. Holds the Project Management Professional (PMP) ® certification from PMI — the globally recognised equivalent of APM PMQ — earned through structured study and applied programme delivery experience.

## PROFESSIONAL EXPERIENCE

**Customer & Operations Assistant** · 2026 – Present
*Marks & Spencer UK · Retail*

**Project Management Officer** · 2022 – 2026
*Safran Engineering Services UK · Aerospace*

- Managed scope and change control across multiple concurrent safety-critical programmes — reviewing, approving, documenting, and communicating changes across stakeholders.
- Built Power BI dashboards and automated trackers that replaced manual reporting — now used across multiple departments for live programme visibility, freeing daily reporting effort by two-thirds.
- Monitored programme timelines including critical paths, resource pinch points, and milestone delivery — producing structured progress reports for Programme Managers.
- Coordinated across Engineering, Quality, Programmes, Operations, and Purchasing — keeping delivery aligned and stakeholder expectations managed throughout the programme lifecycle.
- Drove continuous improvement initiatives — from workflow automation and reporting enhancements through to evaluating new tooling like Smartsheet and Power Automate to lift delivery performance.

**Customer & Operations Assistant** · 2021 – 2022
*Marks & Spencer UK · Retail (Part-time)*

- Built strong communication, organisational, and interpersonal foundations through customer-facing retail work alongside engineering studies.

## KEY ACHIEVEMENTS

- 66% reduction in daily reporting time — automated daily PMO reporting using Power BI and Excel, with dashboards adopted across multiple departments for live programme visibility.
- 3 phases of continuous improvement delivered — migrated from email-based to folder-based programme tracking, evaluated Smartsheet adoption, and currently leading research into Power Automate integration with manager-endorsed scope.
- Cross-functional coordination across 5 departments daily — Engineering, Quality, Programmes, Operations, and Purchasing.
- 100% audit-ready governance — maintained complete documentation traceability across scope, change, and decision records, ensuring programme data passed all internal and customer audits.

## TOOLS & SKILLS

**Tools:** Power BI, Microsoft Excel, Claude, monday.com
**Skills:** Stakeholder & Executive Reporting, Bottleneck Identification & Escalation, Process Adherence & Compliance Checking, Controlled Document Management and Cross-Organisation Coordination

## EDUCATION & CERTIFICATIONS

**B.Tech, Aerospace Engineering** · Sandip University, India · 2017–2021
**Project Management Professional (PMP) ®** · PMI · 2026
**Google AI Professional Certificate** · Google · 2026
